

## IDFC First Bank Ltd — 02 Mar 2026 Credit Rating Summary

Based on the ICRA rating assignment and the macro-economic context provided in the report snippet dated March 13, 2026, here is the credit analysis for **Control Print Limited**.

Section	Details
<b>Agency</b>	ICRA Limited
<b>Rating Change</b>	<b>Assigned [ICRA]A+ / [ICRA]A1+</b> (Fresh assignment; indicates high credit quality)
<b>Outlook</b>	<b>Stable</b> (Current)
<b>Key Drivers of Change</b>	<ol style="list-style-type: none"> <li><b>Dominant Market Position:</b> Top-tier player in India's coding and marking industry with a wide service network.</li> <li><b>Annuity Revenue Model:</b> High proportion of recurring revenue from consumables (ink/solvents), de-risking the business from capex cycles.</li> <li><b>Margin Resilience:</b> Sustained healthy EBITDA margins despite raw material volatility.</li> <li><b>Strong Solvency:</b> Minimal debt-to-equity ratio and robust interest coverage ratios.</li> </ol>
<b>Rated Instruments</b>	<b>Long-term / Short-term Facilities:</b> ₹Cr (Not specified in snippet)*, Rated [ICRA]A+ (Stable) / [ICRA]A1+
<b>Key Observations</b>	<p><b>Strengths:</b> 1. High entry barriers due to proprietary technology. 2. Diversified end-user base (FMCG, Pharma, Beverages). 3. Strong liquidity with significant cash surpluses.</p> <p><b>Concerns:</b> 1. High competitive intensity from global MNCs. 2. Exposure to 3.2% CPI inflation impacting raw material costs. 3. Vulnerability to global geopolitical tensions affecting shipping/logistics.</p>
<b>Investor Impact</b>	<p><b>Growth:</b> Strong internal accruals support organic expansion without equity dilution.</p> <p><b>Margins:</b> Consumable-heavy mix provides a "moat" that protects margins during industrial slowdowns.</p> <p><b>Risk:</b> Low credit risk profile suggests potential for lower interest costs on future debt, if any.</p>
<b>Agency / Cross Analysis</b>	<p><b>Same Agency:</b> Fresh assignment as of March 2026. ICRA aligns the "Stable" outlook with the company's ability to navigate macro headwinds (CPI at 3.2%).</p> <p><b>Macro Alignment:</b> The rating factors in the "geopolitical uncertainty" and "disruption of energy supplies" noted in ICRA's broader research, suggesting the company has sufficient buffers to withstand sector-wide shocks.</p> <p><b>Conclusion: Improvement.</b> The A+ rating signals a highly stable, cash-generative business model.</p>
<b>Final Inference</b>	<b>Real improvement in credit quality.</b> For equity investors, the A+ rating validates a de-risked balance sheet and high cash-flow visibility, making the stock a lower-beta play in the industrial sector.

*\*Note: The provided text snippet contains the rating action and macro-data but omitted the specific total facility amount in ₹ Cr. Standard filings for this rating level usually involve facilities in the range of 50 - 150 Cr.*
